## HSC-200 solar charger top

### Features

### Fitted models

- YAMAHA
- EZGO
- CLUB CAR
- FAIRPLAY/EVE
- TOMBERLIN
- STAR
- BAD BOY
- COLUMBIA

### Specifications

Module	200 Watt poly-crystalline silicon Voltage at Pmax : 26.9 Volts Current at Pmax : 7.44 Amps Tempered glass and anodized aluminum frame
Controller	Maximum Power point Tracking (MPPT) Multi-stage with bulk, abs, and float stages Temperature compensated voltage points LED charge indicator with error notification 36V or 48V with 94-97% conversion efficiency
Gauge	Integrated LED light bar
Format	Two-seater
Hardware	Powder-coated aluminum and stanless steel
Wiring	Industrial grade with locking connection
Weight	55lbs
Dimmensions	72" x 44" x 3"
Colors	Black - Standard (Custom colors upon request)
